Hello, I'm a web developer that loves pixels. Whether it involves developing for the web or creating art. One can say I love to deceive people with pixels. Originally got into this with design, but fell in love with the process of development. Seeing that static mock up bloom into a working harmony of art, numbers and letters.

WORK EXPERIENCE

Firefall, LLC

November 14 - November 17

Web Developer

Developing a cacophony of e-commerce, either large or small, across multiple categories and languages.
