tyronewshine@gmail.com

A web designer that loves the creativity that comes from the simplest things in life. From the impurities in an apple to the complexity of a locomotive, inspiration strikes me with the fierceness of a lion eating a zebra. A trained web designer becoming a web developer, I retained my love for graphic elements like typography. It's sort of like a peacock trying to be a lion, but I guess it works.

EXPERIENCE

Firefall, LLC New York, NY

November '14 -

Web Developer

Soundview Broadcasting Long Island City, NY

April '14 - July '14
